

Welcome to your local **COMMUNITY CONVERSATION**

in partnership with the

OPEN Forum

20 OCTOBER 2016 10am - 1pm
Kings Hall, Stoke, ST4 1JH

A Community Conversation/OPEN Forum will be held at the Kings Hall to gather your views on older people's health and how the NHS can better support them to get well and stay independent.

We are interested in your experiences and opinions as patients and carers and you will have an opportunity to pose questions to a panel of people who are responsible for making sure that the right services are in place.

You will have an opportunity to influence how those services are provided in the future as the information they gather at the event will be used to make recommendations for change.

To **book your place online**, head to the Eventbrite website and search for **'North Staffordshire Conversation'**.

If you have any queries, please contact the OPEN team:
